# Typography

<p> ROBOTO

Must be 16px and aligned to the left with a margin of 5%.  
Always regular font weight.

<h1,h2,h3> DM Serif Display

**First h1 must be centered and the rest must be aligned to the left. Always regular font weight.**

<h4,h5,h6> Arial

Must be centered with a background, it being the secondary light color. Always regular font weight

## Icons

HOME

SOURCE

We will use a secondary color for the icon. In dark theme, we will use the light variation of the primary color. It will be 48x48px

## Images

All images must be set with a border-radius of 50% so as to make them round, unless they have no background, in which case this mustn't apply. Our list of images:

Index.jpg => 577x433px

Width must be 50%.

## Buttons

Must be rectangular, with the secondary main color as background and white text. The variant could have a 2px border with the primary dark color and no background, with the text being the same color as the border.
